

Delavnica »From Metabolomics to Steroidomics and Mathematical Modelling«

Vljudno vabljeni, da se udeležite brezplačne interaktivne delavnice za študente doktorskega študija Biomedicina/Bioznanosti, podoktorske študente in zainteresirane raziskovalce. Delavnica bo potekala 16. septembra 2025 v seminarju Inštituta za biokemijo in molekularno genetiko Medicinske fakultete. V okviru delavnice bosta svetovno uveljavljena predavatelja *prof. dr. Jerzy Adamski* in *prof. dr. Karl Storbeck* delila svoje bogato znanje o metabolomiki, steroidomiki, načrtovanju metabolomskih študij in uporabi steroidomskih podatkov za razvoj matematičnih modelov.

Prijava ni potrebna.

Delavnico organizira programska skupina *Translacijska molekularna endokrinologija za zdravje žensk* P3-0449 Medicinske fakultete, Univerze v Ljubljani.

Workshop From Metabolomics to Steroidomics and Mathematical Modelling

You are cordially invited to attend the interactive workshop for doctoral students of the Biomedicine and Biosciences doctoral programmes, postdocs and interested researchers. The workshop will take place on 16 September 2025 in the seminar of the Institute of Biochemistry and Molecular Genetics of the Faculty of Medicine. During the workshop, the world-renowned lecturers Prof. Dr Jerzy Adamski and Prof. Dr Karl Storbeck will share their extensive knowledge on metabolomics, steroidomics, the design of metabolomic studies and the use of steroidomic data to develop mathematical models.

Registration is not required.

[The workshop programme and further information about the speakers.](#)

The workshop is organized by the Translational Molecular Endocrinology for Women's Health P3-0449 programme group of the Faculty of Medicine, University of Ljubljana.
